BUMP - OUT

Dismantling will begin after afternoon tea
Saturday 26th October 2024

CONFERENCE APP

We continue to go paper-less (or as paper-free as possible) for LEAP 2024! An interactive app will be used to enhance the trade partner experience.

WELCOME

from the Chair

On behalf of the Advanced Practicing Podiatrists – High Risk Foot Group (APP-HRF), we would like to extend this exciting opportunity for partnership and/or exhibition to your company for the Lower Extremity Amputation Prevention (LEAP) Conference in October 2024.

In 2022, we had 250 delegates from a range of disciplines including podiatry (hospital, community and private practice) and nursing from around Australia and internationally. We envision 2024 will be our best conference yet. The Scientific and Organising Committees are preparing a stimulating program focusing on assessment, diagnosis, medical and surgical management of people with limb-threatening foot problems. We will focus on translational science (ie how to apply evidence to practice) as well as practical applications on data collection, analysis and relevance to service improvement.

We expect to attract a capacity audience of 250-300 delegates from around Australia and further abroad. It is anticipated that this event will be a highlight on the 2024 High Risk Foot calendar, with demand likely to exceed availability of registrations.

The program will consist of keynote addresses and invited local speakers over two full days, with the program still being developed. We have confirmed two international keynote speakers, and have confirmed a booking with Pullman Albert Park for Friday 25th and Saturday 26th October, 2024.

Premium partnership is available to one Company that would like to generously support this event and includes bragging rights for the entire 2 days. There will also be a raft of additional partner opportunities including breakfast, product and coffee cart sponsorships amongst others, designed to give you the best opportunity to position your products and services amongst our delegates.

The exhibition area in 2024 will be in a large and spacious area adjacent to where the plenary sessions will be held. Exhibitors can expect to see all delegates at session breaks including morning tea, lunch and afternoon tea on both days. The Organising Committee views the trade exhibition as an integral component of the conference program. A variety of products, services, technology innovations and advanced therapies help to broaden the awareness and knowledge base of the delegates while enhancing clinical practice.

We look forward to your successful participation in our conference event and thank you for your interest and contribution.

KEYNOTE Speaker

PROFESSOR KETAN DHATARIYA

Professor Ketan Dhatariya graduated from the University of London in 1991 and did his diabetes and endocrinology training in and around London. For 2 years during his training he was also a part time General Practitioner in the evenings. He took some time out of his training to spend a year doing intensive care medicine and anaesthetics. After he finished his diabetes training in 2001 he went to do a 2 year research fellowship in endocrinology at Mayo Clinic in Minnesota, USA. He was appointed as a consultant in diabetes, endocrinology and general medicine at the Norfolk & Norwich University Hospital in 2004, and Honorary Professor of Medicine at the University of East Anglia in 2019.

He is a full time NHS clinician, with no dedicated research time or funding. His predominant areas of interest are inpatient diabetes – in particular peri-operative diabetes care, the management of diabetes related emergencies, and the ‘diabetic foot’. He leads one of the largest foot clinics in the East of England.

He has several national roles in the UK. He is currently the Chair of the Association of British Clinical Diabetologists and is also the immediate past chair of the Joint British Diabetes Societies Inpatient Care Group where he led or co-authored several national guidelines on the management of various aspects of inpatient diabetes care. He is the Chair of the Examining Board for the UK Specialist Clinical Exam in Diabetes and Endocrinology. He is also the immediate past President of the Diabetes and Endocrine section of the Royal Society of Medicine. He is the Section Co-editor for diabetes for www.endotext.org. He is an Associate Editor of Diabetic Medicine and, until 2023 was also an Associate Editor of BMJ Open Diabetes Research & Care.

Professor Dhatariya has over 190 peer reviewed publications, and has published over 20 book chapters on inpatient diabetes, peri-operative diabetes care or on the diabetic foot. He has been named as one of the world’s leading diabetes experts by www.expertscape.com

KEYNOTE Speaker

DR CATHERINE GOODAY

Dr Catherine Gooday graduated as a podiatrist from the University of Brighton, England. She has been the Principal Podiatrist within the Elsie Bertram Diabetes Centre, at the Norfolk and Norwich University Hospitals NHS Foundation Trust, England, since 2001.

In 2022 she completed her PhD funded by the National Institute for Health Research (NIHR) on defining the outcome measures of Charcot neuroarthropathy.

She is a member of the Offloading and Charcot neuro-osteoarthropathy working groups of the International Working Group on the Diabetic Foot (2023). She was also a member of the group that developed the NICE guidance; Diabetic foot problems: prevention and management (2015).

In 2023 she was appointed as Nursing, Midwifery, and AHP Research Lead, National Institute for Health and Care Research (NIHR), Clinical Research Network (CRN), East of England.

She now combines a clinical and academic career working to improve the outcomes for people with diabetic foot complications and support other Nurses, Midwives, and AHPs to develop their research skills and career aspirations.
